

EduPulse Design System

Zankit Style Warm & Playful

1. Design Philosophy

The EduPulse Design System follows a 'Warm & Playful' aesthetic (Zankit-Style) designed to make learning approachable, engaging, and modern. Unlike traditional, rigid corporate LMS platforms, EduPulse uses soft curves, vibrant accent colors, and smooth micro-animations to create a premium, consumer-grade experience.

Key Principles:

- **Approachable:** Use of pill shapes, blob radiuses, and soft shadows.
- **Vibrant but Clean:** An off-white background (#FEFDF6) paired with high-contrast primary text (#1A1A2E).
- **Tactile:** Elements respond to interaction with smooth float and slide-up animations.

2. Color Palette

Core Accents

Coral is used for primary calls-to-action, active states, and highlights. Sage Green is used for secondary actions and success indicators.

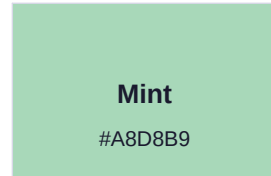

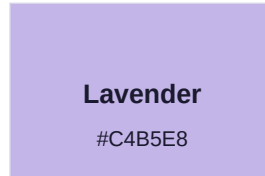

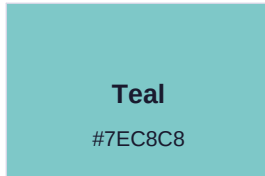

Coral #F4845F	Coral Light #FDE8DF	Coral Dark #D9613E
Green #8DB580	Green Light #E4F0E0	Green Dark #6A9460

Layout & Typography

Background #FEFDF6	Surface #FFFFFF	Border #D8D8E8
Text Primary #1A1A2E	Text Body #4A4A68	Text Muted #9494A8

Color Blocks (Playful Backgrounds)

Used as solid backgrounds behind photos, illustrations, or feature cards.

3. Typography

EduPulse pairs a highly expressive serif font for headings with a clean, highly legible geometric sans-serif for body copy.

Display & Headings: Fraunces / Playfair Display

Used for H1-H6 tags. Imparts an editorial, premium feel.

Example: **Welcome back to your learning journey**

Body: DM Sans

Used for all interface text, paragraphs, and buttons. Clean and modern.

Example: The quick brown fox jumps over the lazy dog. 1234567890

Mono: JetBrains Mono

Used for code snippets and technical data.

4. UI Components & Shapes

Radii & Borders

- **Card:** 20px (Soft, welcoming containers)
- **Pill:** 9999px (Used for all buttons and badges)
- **Blob:** 60% 40% 55% 45% (Used for image masks and decorative background elements)

Buttons

- **Primary:** Coral background, White text, CTA Glow shadow (rgba(244,132,95,0.35)). Translates -1px on hover.
- **Secondary:** Green background, White text. Slightly smaller padding.
- **Ghost/Outline:** Transparent background, Gray-300 2px border, Dark text. Border turns Coral on hover.

Inputs & Forms

- **Base:** White surface, 12px border-radius, Gray-300 border.
- **Focus State:** Border becomes Coral, accompanied by a 3px soft Coral glow box-shadow.
- **Error State:** Border becomes Red (#EF4444) with a Red glow box-shadow.

Shadows

- **Card Base:** 0 4px 24px rgba(26, 26, 46, 0.08)
- **Card Hover:** 0 8px 32px rgba(26, 26, 46, 0.14) (Combines with a -4px Y-translation)
- **Raised:** 0 2px 12px rgba(26, 26, 46, 0.06)

5. Motion & Animation

Animations are declarative (via Framer Motion) or CSS Keyframes, emphasizing fluidity without causing motion sickness.

- **Shimmer:** 1.2s infinite ease-in-out gradient sweep used for all Skeleton loading states.
- **Fade Slide Up:** 0.6s ease forwards. Used for page entrances and staggering list items.
- **Float:** 4s infinite Y-axis translation. Used for decorative abstract UI elements in hero sections.
- **Morph:** Complex border-radius transition used for organic background blobs.

6. Layout Constraints

- **Max Container Width:** 1200px (Centered with auto margins)
- **Container Padding:** 32px on Desktop, 20px on Mobile
- **Vertical Section Rhythm:** 80px on Desktop, 48px on Mobile
